I am normally a supporting infantry character, defending the base or sniping soilders to steal tanks, or I am a SBH myself.

When I am in a vehical I will take ti back to ase, have a tech with me, or (on maps like under with rocks the the tiberium) stand on the rock with the tank in the tiberium healing it that way, while i keep moving around so if a sniper is on me they cant lock right away

but normally when I am NOD on Under, I am a sniper hiding on the side behind a rock sniping the engi's and techs that get out of their vehicals.
