Plane blowing up or hijacked in one hand or someone seeing your bones. I can see the dilemma in this decision.

Yes, because privacy is so overrated...

This is just another way the government can expand its power.  
There are other ways to protect against hijacks.

Like what? There are bombs that aren't made of metal. So metal detectors won't work. And the only other way is if they FEEL you... even in your "privacy places". Which is still ineffective.
