fI00d3d wrote on Wed, 13 December 2006 22:32 The common argument for more "pro" players (take that how you will) is that the pedestal gives the opponent a chance to win the game regardless of points or the building/vehicle situation which they feel is a more accurate representation of victory.

I have mixed feelings on this, but I think an agreeable setup would be:

PUBLIC SERVERS = pedestal on
CLANWARS = pedestal off
seconded.
