I personally don't care that much. I feel pretty much any time a game was won by a ped beacon that the other team should have won. I doubt anyone really knows if the majority like ped on or off, or if people even care so much. I just wanted the creator of the topic to tell me why he thinks a server owner SHOULD have it on. I don't see what the problem is if it's off. he says because it makes people pointwhore and whatever else he said, and he was wrong.
