You fudgin retard, u give so much shit to this comunity ur owrds mean nothing at all.

PsycoArmy

Correction; you give shit to this community... If you would work to make your models half-way decent, then come back and claim to be high and mighty, you'd be better off.

Then again, you don't do that... I don't care if you try or not. Try on your own. Produce results, or don't fucking post anything. I'm sick of garbage modifications being posted by little kids with no initiative.

You already had like five modifications going before this. You never finished a *single one of them.*

Finish what you start or get the fuck out.

Your right i am a little kid. But not a a little kid that wants to outdo any1. am here to have fun, play some games, make models form my own designs by trying to keep the models poly within the limit.

I am not a adult (in my country over 18 is adult) acting like a child, i am a child, you can not change the way i act or model with your words. And i have gone thourgh my life with people like you who like nothing but theirselves. I m sick and tired of your peoples attitude.

So Please stay out of my way because this is the last time i am going to even read ur post.

I have to agree with Psycoarmy on this one, why should it bother you ack if he makes crap models?

If there so crap why do you even need to comment on this, is it because you feel the need to slate everyone to stop them becoming as good as you at mapping/modelling. You we be far far more respected if you learned to help people and stop insulting them. If you want to get a job in a company modelling and mapping which i am pretty sure if your target in life.. no one is going to take you on cause you act like such a jerk you now have a reputation for ripping into anyones creativity and that is going to stay with you for a long time unless you change your name and break every tie with this community.

I am not saying this as a friend or as a enemy i am stateing this as a fellow member of a community which you are destroying with your negative influence to every shread of creativity. I am sure this post wont change you, i am sure you will go through life being so narrow minded that you continue to put other people down for being creative. I no longer want to witness the endless shit that goes on in this forum i would recomend everyone who wants a decent community where people wont flame you but will try to help you out if you are having problems to go to Planetside i see 100th of the flaming over there thaN i do here and that community is 10 times the size of this

one.

Soon enough when ACK has scared everyone away from the renegade community besides the people that dont visit the forums and therefore dont play his maps he wont have anyone to flame besides crimson, Blazer and maybe Dante who i think are hero's for sustaining this community for this ammount of time. Over the past few months i have seen many friends leave this community i am afraid i am very close to the desision too, and no ack i dont give a shit if you think i have done nothing for the community and i wont be missed because if this continues there will be no one left to play your maps THEN YOU WILL GIVE A SHIT.

PS: ACK you may not even realise it but you are destroying the community that you love for you own means..... Fame..... and being hated.

And all the people i have promised to make maps for dont worry i will be true to my word after i have finished my A level Exams (a few weeks).

your proposing- that all new modders go somewhere and die for the hell of it.

Sir Phoenixx Posted: Sun Jun 01, 2003 2:41 pm Post subject:
It's actually surprising to see this much ignorance in just one person. He never said that in this thread, or anywhere else. "Just work on one mod at a time and finish it instead of do a dozen different mods and never finish them." is no where near what your little mind came up with.

I'd like to find where ack said somethin like that out of his many flames but thats what i generalized.

As i said above, if Ack aint doing something like that PLZ NOTE I SAID SOMETHING LIKE THAT than i dont know what in the hell your thinking hes thinking. If ignorance means that i care about someone flaming their ego over everything/one that they think is below them, then sure, IM GUILTY OF YOUR EVER SO SMART ACCUSATION. :sly: :bomb:

PS Just because u hate someones creation doesnt mean you should damn them to eternity with flames and attempt preventing any further improvement in their current mod or skill :rolleyes: .
