jonwil wrote on Sat, 16 December 2006 20:45Renx, I have no idea why alt-tab is crashing for you. Is it crashing for anyone else?

It isn't crashing me, BUT I remember when I had that other patch that used d3d9 and made renegade run Directx9.0c that when ever I would minimize the game, it would crash.

It has something to do with my graphics card, because for others it worked fine.

Maybe the same problem here?
