trooprm2. For some reason, I don't think your even 10. You can't spell for your life, you always accuse people for hacking, and as j_ball said, you don't have to be old to enjoy games. I consider grownups to be around 18+. And they make rated M games (17+) Which would be close to what I consider an adult. If you consider adult gamers idiots? What do you make of fl00d3d? Hes 25+ (somewhere around that? sorry, lol!) What do you make of Crimson? And other important people to the "gaming" community? Without adults in games, we wouldn't have servers, and other shit. You are the idiot.
