trooprm02 wrote on Thu, 11 January 2007 08:39Im now wondering how half the people here are over 30, playing video games (some more than others) and find time for a day job (and for a few, family)?

Easy.. it's called balance.

I'm not over 30, but... I work 8:30 to 4:30, get home an hour later. That gives me almost 5 hours to spend with family and gaming. More than enough. Not to mention weekends are free.
