Yeah, um, he was a cheater and has been banned for a couple months now. The good players at clanwars.cc don't use advantage skins, we think they're gay.

I know ur just trying to 'diss' clanwars.cc as much as possible because you got owned there and think it 'must be cause they cheat and use advantages' - when in reality hardly anybody uses those gay skins, and if anyone is caught cheating they're banned instantly. As mex said, Spooky is contemplating banning advantage skins all together.
