admitting to being a fucktard is a good start, have you read the n00bstory about yourself? think maybe coming back here under two different names and having a conversation with yourself should probably be added, how does it feel to be a joke to the community? Link is here btw: [http://www.n00bstories.com/n00bfile\\_view.php?id=6813](http://www.n00bstories.com/n00bfile_view.php?id=6813)

Why not go be a gangstar and bust some caps in peoples asses like the tough man you are instead of "testing" cheats in public servers, might get to spend a bit more time with your cousin.
