---

Today is the day that we have no more secrets about what we did and saw at the Community Summit last month. I will go through my notes this weekend and tell you some of the cool things I made a note of. But until then, one of the best writeups I've seen is by JohnWE of CnC-Files:

[http://commandandconquer.filefront.com/info/cnc3\\_summit1](http://commandandconquer.filefront.com/info/cnc3_summit1) (pre-embargo)

[http://commandandconquer.filefront.com/info/cnc3\\_summit2](http://commandandconquer.filefront.com/info/cnc3_summit2) (post-embargo)

I know HeXetic from PlanetCNC.com's writeup will also be detailed and picture-filled, but he hasn't posted it yet.
