I don't see how you are going to get custom model textures to work if you don't want to have to add anything...

You can get good model textures below:

[www.cncden.com](http://www.cncden.com)

[www.cnc-source.com](http://www.cnc-source.com)

[www.planetcnc.com](http://www.planetcnc.com)

[www.cncseries.com](http://www.cncseries.com)

I'm sure there are many other places as well.
