i have an a00 name and itll be run under the RenUnderground name however blazer is right be prepared for uber-SFPS lag! lol

i might do 127 AOW for the first day or 2 and then try out 127 player sniper

i recon if we did 127 player CTF it would be pointless as the flag would never be captured -- as i dont expect alot of teamwork to go on here

tank limit will be set to 100 btw
