icedog90 wrote on Wed, 17 January 2007 03:02 Yeah, having Windows XP 64-bit doesn't mean everything you have on there HAS to support 64-bit. I see this confusion all the time in this forum...

I know but it has been shown that some programs fail to work (like renguard) due to various reasons.

Anyway, little update: we tested this and both renfids and brenbot work like a charm.
