AprimeWhat are you going to do about the copyrights on the name "Battlefield1942"?

Other than that,it's pretty

Map called BF42, and I'm not making any money on it, so first of all, I doubt if any one at EA even cares. But again, I've broken no copyright laws. Maybe the name BF42 would come close, but I don't think EA is going to mind, since it's not a game name of mine, only a map name of mine, and

anyways thanks for the input.
