On Field yesterday, i was in tunnels with Sak, the whole team was gettin pwned by this guy with shottie, he wasnt cheating, he just had a good shot with it and wasnt afraid to kill himself to see you die....

Then again, for being free, i wouldnt be either.

Thats my style of gameplay. Someone has to take a few deaths for the team especially if it get the snipers off your back for a few minutes.

Snipers and high kills go hand in hand, but I will sacrifice myself all the time.

0 credits and a kill against 1000 sniper!!! Wait till you hear my shouts of joy on TS
