OK, so... HeXetic of PlanetCNC.com may or may not have attended a secret or not so secret meeting at EA, where EA may or may not have had the goal of discussing the game in detail with people who may or may not have a more complete understanding of the C&C storyline than some or most of the developers there. Therefore, HeXetic's enhanced coverage of the C&C3 Community Summit may or may not be better than most people's out there because he may or may not have been given a more in-depth look at the game.

This is how it may or may not have been explained to me, anyway.

So, Read HeXetic's coverage and you will be more than ready to play C&C3 when it comes out, at least in between all the time you spend playing Renegade!
