Yeah, so we did a virus removal at my work (Staples Business Depot) for a customer, and look what we found:  
(Anyone Ever See That Many?)

Also I thought I'd share with you What I did to setup for Vista:

The screenshot shows the AVG Free Edition - Test Center interface. The main window title is "AVG Free Edition - Test Center". The menu bar includes "Program", "Tests", "Results", "Service", and "Information". The left sidebar has links for "Control Center", "Virus Vault", "Help Topics", "Scheduler", and "Test Results". A message in the sidebar says: "Attention: You can extend your protection level with Anti-Spyware, Personal Firewall or Anti-Spam! Click here to learn more...". The main content area has a "Security status" section with a green checkmark icon and the text: "You are fully protected. Your system is up to date and all installed components are working properly." Below this is a "Test Result" section with a "Complete Test (1/26/2007 3:59:41 PM)" timestamp. It shows a table of results:

Item Name	Item Value
Report status	Scanning completed successfully
Object summary	
Scanned	105366
Threats Found	4706
Cleaned	0
Moved to vault	0
Deleted	4706
Errors	0

At the bottom, it says "For Help press F1" and shows the system information: "7.5.432 268.17.12/653 1/26/2007 11:11 AM".
