Yeah, so we did a virus removal at my work (Staples Business Depot) for a customer, and look what we found:
(Anyone Ever See That Many?)

Also I thought I'd share with you What I did to setup for Vista:

The screenshot shows the AVG Free Edition - Test Center window. The title bar reads "AVG Free Edition - Test Center". The menu bar includes "Program", "Tests", "Results", "Service", and "Information". The main interface is divided into a left sidebar and a main content area. The sidebar contains icons and labels for "Control Center", "Virus Vault", "Help Topics", "Scheduler", and "Test Results". Below these is an "Attention:" section with text: "You can extend your protection level with Anti-Spyware, Personal Firewall or Anti-Spam!" and a link "Click here to learn more...". The main content area has a "Security status" section with a green checkmark icon and text: "You are fully protected. Your system is up to date and all installed components are working properly." Below this is a "Test Result" section for a "Complete Test (1/26/2007 3:59:41 PM)". It has tabs for "Result overview" and "Virus results". A table displays the scan results:

Item Name	Item Value
Report status	Scanning completed successfully
Object summary	
Scanned	105366
Threats Found	4706
Cleaned	0
Moved to vault	0
Deleted	4706
Errors	0

At the bottom right of the main content area is a "Back" button. The status bar at the bottom of the window shows "For Help press F1", "7.5.432", "268.17.12/653", and "1/26/2007 11:11 AM".
