I believe it is against the law if you don't tell the customer/consumer of your hosting services when their site is going to be shutdown.. If I am wrong, please correct me. If I am right, I ask for permission to download my files, change my nameservers back to bluehost's, if not, I believe I will press charges against you. Or possibly contact your reseller to sue you. Your choice, you got a couple of em.

You never give up do you.

I dont know if I have them, And NO i dont need to give you your hosting back, Because if was a Free hosting account.

Oh yes you do. It is against the law to hold information about one's customer's/consumer's information on a hosting account.

PS: J.D just raped your ass.. You need a credit card to use paypal (which you said you do) and you have to be 18+ I believe to own a credit card? So you MUST be using your dad's cc. Meaning, you sweet talked him.

Owned, gg. Die and burn in hell.

I get the people to send money to my dads paypal, I dont take from his account. I call my dad for permission. I got sent \$49.00 for a refund. The \$49.00 my dad said he can send to his paypal, and to ask if he needed to use it.

i didnt want to start anything guys, Im sorry if this is an issue, i will give u ur hosting back if you want it, I didnt mean to be mean or nasty to you Greg, im sorry for all this chaos guys.
