You can't just ignore people like him who perpetuate problems. You need to go to the source of the problem (the person) and justify removing them from the forums ... which is what we're doing by counter-perpetuating this thread.

In sum: he needs to be banned so that he can't start new problems. We can't just ignore him because then we wouldn't see the lies and bullshit he tries to feed to people and we wouldn't be able to defend ourselves. Just ban him already.
