AircraftkillerShady, you're an assrammer, shut the fuck up.

Duke, you never played with ADM when he actually \*tried\* playing Renegade, the beta days. He hasn't been playing for two years. Probably only as long as I have been playing, except he stopped a long time ago, so it's been about nine months compared to my 1.5 years or so.

He was an excellent sniper. He got his ass whipped by Cy4nid3 though, as he was (Before he died.) the best fucking soldier I have ever met in Renegade. You give that guy a Mobius and he'd kill everything and everyone. He was unstoppable. I remember just going "Okay, Cyanide's got a Mobius, just give up" because he'd plant beacons and shit and you'd never be able to disarm them because of how skillful his aiming was. I realize that Mobius characters have it easy in close combat, but this guy made a Havoc die in two seconds flat... You just don't get better than that.

ADM sniped pretty well. I don't know if you'd call him the best sniper ever, but he was good and put up quite a challenge for a lot of the snipers in the game during the beta days.

I've been playing Renegade sniping up to about 3 weeks ago. Cy4nid3 didn't even play me in a 1v1 sniper match, he told me that he didn't enjoy sniping and he perfered other stuff. I left Renegade for 2 weeks someone in between for a break and I came back ad remade HS.

Anyway Aircraftkiller you moving on to Planetside?
