I was playing a game on Complex with Kozar on GDI a few weeks ago. He was doing using the timed C4 + APC whore tactic, in which you get out of the APC, throw about 50 timed c4s on its front over the span of 30 seconds, then go on an explosive rampage.

It was while he was using this tactic that he said "Anyone who steals tanks on this map WILL BE BANNED."

There were no SBHs that stole his APC throughout the game (how, I don't know), so I can't confirm whether he did or would have kicked and enemy had they stolen his empty APC. But had he done so, then yes, he would be a shitty moderator in my book.
