Yay, fixed that annoying crash.

As for sending something.. I'm not really sure what to send. I'm not doing anything special, as far as I remember all you had to do was click the solider/spawner and then click "make"

I have looked at the tutorials, and they haven't told me anything I didn't already do. Its like I'm missing something all together.

If there is something specifically you want to see, let me know
