This bitch was given five life sentences for involvement in killing a handful of people, including a judge, banker, and police officers, yet they are letting her out on probation after serving only 24 years!

What the fuck? The entire purpose and point of multiple life sentences, is to make sure that you never get out of prison, and to underscore how serious your crime is.

What sort of deterrent is it to know that you can go on a killing spree and just get what amounts to a slap on the hand? Yeah 24 years is a "long" time to be in jail, but she was sentenced to FIVE LIFE SENTENCES...she should have never been released.

There are also many instances in the U.S. where people who were convicted of a single murder charge get out after a year or less of time. It's really sad...I guess soon we will be complete pussies and just make people stand in the corner or get their Ipod taken away for killing someone.
