ehm , i cant play , not in administrator mode not with

Windows Vista Wed, 14 February 2007 04:52

CarrierII

(This is based on XP, but chances are it's similar)

Start >> My Computer >> Hard Disk (whichever one you installed renegade on) >> Westwood >> Renegade >> Right Click on game.exe and left click on "properties"

A window will open, there will be a tab labelled "compatibility"

Click on this tab, and check the box marked "Run this program in compatibility mode for..." and Choose Windows XP Service Pack (or SP) 2 from the drop down menu.

thats not good
