Anyone one have any suggestions on a clan?

A little about me, I've had renegade since it came out been playin it off and on with friends that no long play.

I'm good with the light and med tank, real good with the nod big gun tank and both apc's. And pretty good with the lancer.

Soso with the stealths (just not that stealthy) and I suck with the mummies.

I'm average to good with the snipers, but mostly been playing as one lately.

I only play in the evening (est) and I like tall women (though my wife is short)

If any one thinks i may be a good fit for them or at least some one to kick around let me know.

Thanks
