puddle_splasher wrote on Tue, 20 February 2007 05:34 If the doors are mined then SBH are at a loss.

One sbh survives 3 mines, so if there are more mines the first sbh takes out for example 2 mines and steps back.

Then the next sbh takes out the rest of the mines.

So even with a mined building lets say 5 mines per door, its possible to get in.
