The two locked jail cells are Nod's jail areas in Cops and Robbers games

The locked laundry room and locked upper bathroom in the mansion area are GDI's jail areas in Cops and Robbers games.

This is my general understanding of cops and robbers games::

Cops and robbers games are a variant of the standard deathmatch game type where in addition to killing everyone on the opposing team, you may find yourself rescuing a teammate who has

your timed c4 (so you appear unarmed and therefore are much less likely to be shot on your way

may become the target of whatever jail guards are in the area).
