I disagree with this thing, too. It sounds like this guy is one of the legions who will speak against the game just to get attention. How we can take him seriously when the bulk of his argument keeps coming around to "they fucked everything up"... "this looks like shit"... his arguments hold almost no bulk at all. Someone yank this guy off the stage.

The props are bought at BEST BUY!? What the fuck! Sorry, dipshit, but I met the guy who made the props (along with the other Community Summit members) and he is EXTREMELY professional and devoted to his work. Furthermore, he's made props and sets for dozens of sci-fi movies for several years.

Fuck you, whoever this is. He doesn't have a CLUE what he's talking about. Then he calls us ignorant if we don't agree with him. Good tactic, buddy!

ROFL I laugh and laugh some more... my god... he's SUCH an attention whore!

I don't know who EA Shortbus is, but he's sure living up to his name. Please come back when you can put some substance to your arguments, eh buddy?
