Sir PhoenixspreegemNever Mind, I figured it out, but what does the demolition thingy do??

You see your little blue converts in the right corner? When you click on one of them it sends the stick guy walking out of your castle with a bunch of explosives tied to him, when you click on him while he's walking he blows up.

He becomes obsolete when the enemy's start sending their own kamikaze people at you. You can click on them and THEY explode.
