As WNxBombZu said, we have 0 tolerance for cheaters. If you look at our Laws page, it is the very first Law explained in detail.

We are Renegade veterans and have been around this game for 5 years. We get many applications almost every day and have to test and approve/deny many possible recruits. In this case, this fella has magically sneaked in our clan by telling me from the bottom of his heart that he does not cheat and is strongly against cheating. Which is really sick.

As you can see he has not lasted 1 day in our clan after he was discovered. Our action was and is always quick and swift.

Again, this person has brought shame to himself and the tag he is wearing, but unfortunately as you know, things like this happen all the time.
