Dr.SnugglesIf you find it interesting, help spread the word. It's as simple as that.

I have been sparky. What viable option for playing Renegade do you have? If you say "Gamespy" I am going to laugh. WOL is down, and it's future isn't looking good. I am trying to get this community to support a good replacement option. If no one plays Renegade for lack of servers, then this board becomes the "Remember how good Renegade USED to be?" board.
