Hi there

to change this setting go to you FDS folder it should be in:

C:/Westwood/RenegadeFDS

Go into the FDS and into the sever folder, in here there is a sever config. open it and scroll down
till you come to GameType all you have to do is change it from WOL to GameSpy.
This will create you FDS though GameSpy Arcade.
Please post a reply to let me know if it worked?

Thanks.
