Mad Ivan wrote on Mon, 07 August 2006 02:21 if it's the same lightmaps that i am thinking of, you'll have to refer to Sloth's Lightmaps tutorial (the link was somewhere either here or on the old CnC Reborn forums). But the tutorial is kind of "raw" and won't help you much if you aren't fammiliar with 3DS Max.

Sorry for digging up this topic. Is there any place where i can get these tutorials? I searched with google and so on but can't find them.
