Goztow wrote on Tue, 13 February 2007 06:33 So true, Sniper De. Kill whoring with an apc is my revenge to all the n00bjets that just wait until u're unaware and start typing something.

lol! I almost got myself killed this way in City Flying yesterday evening.

I was a Sakura on the overpass...while I was busy looking for infantry, this APC comes storming for me! I had no choice but to jump down! I lost a lot of health but made it back to my base.
