You notice that it doesn't say NYPD Busts All Liberals that Turn Out at Protest. Does it? Or does it say a bunch of times that they were trying to figure out who was going to incite violence? I'm sure you've seen the protest warrior videos J_ball. Those guys were physically attacked, and that's where it's a problem for the NYPD. People setting fires, technically a problem for the NYFD but problems for police too. Their probable cause was preventing mayhem. The very reason government exists in the FIRST place. If this hadn't happened and a bunch of shops had been burned and people had been hurt or killed, you can be DAMN sure the NYPD would be all over the media. Ineffective Cops Can't Keep Handle on Vandals or 3 Die in Protest Fire: Why Wasn't NYPD Prepared?. There were people planting hoax bombs. Who the Fucks brilliant idea was that? Could you be asking to be arrested more? Or shot?
