I'm watching Flight 93, and it's pissing me off. It's pissing me off how this whole thing happened. It's also pissing me off on how liberals insist that Iraq had nothing to do with 9/11 even though they're allied with these fucking monsters that orchestrated this. They gave medical attention to the damn al queda (I don't give a fuck how they spell it) terrorists. That's reason enough to crush these fuckers with all of our military might.

If you "bleeding heart" liberals really care about the common good, you can care about the common good of the middle east. If you assfucks can spend 56% of the government's budget on helping the poor, we can continue to finance the war. Get your heads out of your pompous asses. If you can spend my money on non-deserving, lazy retards, I can spend your money on freeing a country and helping to silence the people that orchestrated 9/11 and their allies. This is larger than your piss-poor attempt to make yourselves feel good by helping the "poor".
