<http://www.dansprojects.com/Seye/Preview.avi> <== incase you didn't belive me

I know about the toolstrip text at the bottom and it wont display the player "type" properly.

Dave's site is down atm, here is the link: <http://www.dansprojects.com/Seye/Seye.zip>

As soon as i get these damm errors fixed i will start on buildings. i am going to make it show the type and the health. when there is no power is will show an icon. when the building is dead it will show another.
