I was actually thinking of that...

z310 wrote on Thu, 05 April 2007 22:19 I don't know how strict the security will be; I'm afraid of getting padded down.

Just gotta put it somewhere I won't get padded down. And it can't be beer: 12 bottles worth in a zip-lock bag wouldn't work out too well.

I can put Everclear in bags like that and place them in various places where I won't get padded, like my shoes (make them look like they're "stuffed").

But I like the perfume idea the most.
