Ok, instead of making another crappy singleplayer cheat, I'm going to make a mod package. I think I've figured out how to spawn things will c4/beacons. I'll have a few maps, where you spawn with only a pt (with vechs, and chars enabled) and another pt (with just weapons that spawn buildings). So I'll have it enabled so that you can buy weapons that spawn buildings suchs as turrets, walls, etc.

Ever heard of Tech Assault? I heard of it. But I don't have it. :/ I heard that it had a apc that spawns buildings. Basically my mod is based off of that.

I might get a few more questions later... I only have on now:
Is a second pt with only weapons possible?
