Quote:There is no need to backup this file, because binkw32-rml.dll is the original binkw32.dll from Renegade. The new binkw32.dll is a 'module loader' I coded, which loads any .dll files from the 'modules' directory.

My Binkw32.dll is 299Kb, your Binkw32-rml.dll is 124Kb.
