---

after i stopped playing renegade it was all fine  
now i wana start playing again and it downloaded game.exe and game2.exe again  
i thought: 'wtf that's the 2nd damn, stupid thing'  
then it tryed to connect me  
failed 3 times  
i thought 'wtf stupid thing'  
tryed to restart renegade  
again it failed to connect me  
tryed like 5 times  
couldn't connect me  
restarted my pc  
tryed again  
couldn't connect me  
i'm getting realy pissed

another thing is that most of the servers don't recognise it yet

can't play renegade with rg anymore  
again
