1)accounts dont prune and people have registered fake wins against non-active clans and no body knows/can check this, luckily I did.

We've already established the fact the game vs Pirate was completely valid, and it's obvious to everyone except you.

Firstly most advantage skins are disallowed on Clanwars.cc. Secondly I think it's hilarious that you likened Clanwars.cc with backwalking the obelisk. If you did some basic research (such as reading the thread that video was posted in) you'd see the clan was reset for it.
