I've never made rules to please people who don't even play in the league.

If I dont play in the "league" how did mexpirete register a "win" against someone who doesnt play their? Exactly, once again you've proven me right more than I ever could, and for that I thank you

One game does not really constitute participation in my mind, especially since you've moved heaven and earth to (unsuccessfully) debunk it somehow.

EDIT: two, if you count the loss to Wiggles, since you tried equally hard to make it look as if you didn't lose that one either.

EDIT EDIT: I'm also reminded of the time you told everyone here how trooprm## "Own3d" me in your server, based on the fact I won both games against him.

I think I've hit upon the reason for your irrational hatred of Clanwars.cc - you're simply a chronically bad loser. In your mind, your feeble excuses about losing are somehow valid... but on Clanwars.cc, the stats don't lie.
