---

Eventhough I have had Renegade for a long time, I am still fairly new to this community. I joined Renforums in February and though I am familiar with many good people here, one "important" character still eludes me.

I hear a lot of arguments and "fighting" between troopr02 and others here. Seems like everyone hates him. I know he has a clan and that, based on his posts, is like a "formidable" figure in Renegade.

Can someone please educate me more about this mysterious character that is known as troopr02? Is he really good in Renegade?

PS: Please, don't flame him or me. I am just asking this question on a neutral basis...I don't know troopr02 and he does not know me. I am just curious.

Oh...and tell EVERYTHING you know about him. ABSOLUTELY NO FLAMING PLEASE. Thanks!
