I hear a lot of arguments and "fighting" between troopr02 and others here. Seems like everyone hates him. I know he has a clan and that, based on his posts, is like a "formidable" figure in Renegade.

Can someone please educate me more about this mysterious character that is known as troopr02? Is he really good in Renegade?

PS: Please, don't flame him or me. I am just asking this question on a neutral basis...I don't know troopr02 and he does not know me. I am just curious.

Oh...and tell EVERYTHING you know about him. ABSOLUTELY NO FLAMING PLEASE. Thanks! How can one describe someone despicable without diving into things that one could consider to be "flaming"?

Most importantly, I think he's an attention whore. He may or may not be as stupid as it seems, but he does like to stir up controversy and have all the attention be on him. He's made it clear that he revels in the spotlight, yet so many more feed him this source of power. If anything, I would say he's smarter than most of his adversaries because he's able to manipulate them, basically tell them that he is manipulating them, and still manage to manipulate them.

Other than that, he's just a forum troll because everybody allows him to be. He serves no purpose to this community. Plus, he's Canadian, and that right there tells you something's seriously wrong with him. (It's a joke, people. Get the fuck over it.)
