Jeep's right, but that doesn't mean you don't have a point. In the past, old leadership was just interested in remaking things. But with time, we've come to realise that it's not worth the time lost. That, instead of remaking things, we should be managing.

I can guarantee you though, that things have changed. In the past 2 months we've been concentrating our energies into getting something playable. I'll be disclosing more information about this soon.
