^^wow, are you fucking retarded? Seriously kid, get help now...

Not what I meant. Unsure if everyone else is flaming me or you. But I was saying that they have effective anticheat software. And don't tell me to get help. I don't boast all day long about all my fake wins against people who are newer than 2 months. You never accept a challenge and you have excuses for everything. If you think I need help, then maybe YOU need help. Get over the simple things in the internet and perhaps you should leave. Everywhere I look here, EVERYONE hates you, and I KNOW that you didn't "own" them. Seeing that you make a topic for everytime you kill a person in a game, I see very few. Get a life. Go fight some pros and get over your losses. Seriously kid, get help now...

BTW Don't flame me for "spending 5 hours to write this paragraph", it proves your immaturity even more and, I tend to try and make a point in my words. I might speak for everyone else here, if they agree, just leave us alone and your "GREAT REPUTATION" won't be ruined anymore.

Thanks.
