The song would appear to be called "Higher Sexication" but 0 returned results but one song that doesn't match called "Sexication" does exist.

You maybe looking at a snippet that was created specifically for that menu. I have always wanted the song from beetlejuice where he wrecks the car and see's the "Panties Shack", i tracked it down so far that i got to the composer who told me he only made a 30 second clip, it was not a whole song.

im checking that info in limewire but still nothink (((((
